

STARWELD
BY STARCRAFT

2019

It's your Saturday morning ritual. Up before dawn. Meet up with friends. Stop for coffee and bait. Then show the fish who's really in charge.

You're serious about fishing, and so is the 2019 lineup from Starweld. Designed with input from top tournament pros and full-time professional guides who are on the water every day of the year, Starweld models ride on Starcraft's legendary, full-length reverse chine hull for crisp handling and a smooth, dry ride, even in a heavy walleye chop. Starweld lets you choose the length, the layout and the features you want, without breaking the bank in the process.

FOLLOW US

BUILT FOR

A SOLID DAY

ON THE WATER.

BUILT WITHOUT COMPROMISE.

Fishing boats need to be tough, and that begins with a solid foundation. That's why every Starweld model rides on a high quality, fully welded deep-V hull that's built with heavy-duty, internal torsion beam construction for unmatched strength and durability. We don't cut corners, so every Starweld gets a full-length reverse chine hull that gives you faster planing times and a dry, smooth ride even with a full tournament load. We top that off with a choice of spacious floorplans with massive casting decks and flexible seating options. And we wrap it up with a long list of options that let you rig this boat just the way you want, like a trailerable ratchet cover, a stainless steel 3-step boarding ladder or your choice of the latest electronics — all factory installed.

STARWELD PRO

STANDARD FEATURES

- All-welded Construction with Lifetime Warranty
- Heavy .100 Gauge Hull
- Automotive-inspired Consoles with Speedometer, Tachometer, Volt Meter and Fuel Gauge
- Large, Durable Full Vinyl Bow and Casting Platforms
- 30-gallon Aerated Bow Livewell (20 Pro)
- 25-gallon Aerated Bow Livewell (18 Pro)
- 25-gallon Aerated Stern Livewell (16 Pro)
- Automatic Bilge
- JENSEN MS3A Stereo w/ Bluetooth®
- Trolling Motor Panel
- Sea Star Hydraulic Steering (20 Pro & 18 Pro)
- Humminbird Helix 5 Built-in Sonar Unit

POPULAR OPTIONS

- 12/24 Volt Trolling Motor
- Battery Charger
- Snap-on Cover
- Trailerable Ratchet Cover
- Bimini Top with Visor (N/A on SC)
- Full Enclosure
- Bow Cover
- Additional Fishing Seat
- Power Pedestal
- Seat Slider
- Bow Cushion Seat
- Rear Flip-down Bench Seat (16 Only)
- Stainless 3-step Boarding Ladder

DESIGNED BY CHAMPIONS

It's called the Pro Series for a reason. Designed with the input of top professional anglers who are on the water nearly every day of the year in every type of weather imaginable, Starweld Pro Series is as good as it gets. Built for big water and serious fishing, each model in our Pro Series cruises on our legendary all-welded, full-length reverse chine hull with its unequalled torsion beam stringer system for exceptional handling and durability. Then we add pro features, like flush-mount electronics, oversized aerated livewells and lockable storage for up to eight rods. Starweld Pro Series gives you everything you need and nothing you don't, so performance that will leave you head over heels doesn't have to cost you and arm and a leg.

A man with a mustache, wearing a blue Columbia jacket, a dark Starcraft Marine cap, and sunglasses, is focused on working on the outboard motor of a boat. He is using a wrench on a component of the engine. The background is a light-colored, textured surface, possibly a boat's hull or a workshop floor. The overall scene conveys a sense of professional expertise and hands-on work.

DESIGNED BY THE PROS

TO OUTPERFORM.

BECAUSE TIME ON THE WATER MATTERS

Do you live for the weekend? So do we. That's why we build every Starweld as if we were building it for ourselves, with a heavy duty, .100 gauge welded aluminum hull that's backed with a lifetime warranty. It's why we focus on features that matter, like a spacious, raised bow casting deck, an oversized aerated live well and plenty of freeboard so there's always ample space for your gear. And because time on the water is best when it's shared with friends and family, we give you the option to personalize your boat with a wide range of options, from an electric trolling motor to electronics upgrades or even a Bimini top.

ASK YOUR DEALER ABOUT FACTORY INSTALLED OPTIONS FROM

BUILT & BACKED BY STARCRAFT.

1 All-welded Construction

Every Starweld offers the toughness and reliability of all-welded, marine-grade aluminum construction that's backed by a lifetime warranty on all seams.

2 Premium Console

Starweld consoles are automotive inspired and feature flush-mount sonar graphs along with speedometer, tachometer, voltmeter and fuel gauge.

3 FreshCatch Livewells

Our aerated livewells are timed for convenience and feature a PowerStream nozzle, a single bilge and black thru-hulls. *(See model lineup for location and sizes.)*

4 Lockable Rod Storage

provides plenty of secure storage space for your gear and keeps the floor free of obstructions. *(See model lineup for in-floor, bow, stern, port and starboard locations.)*

5 Injection Flotation Foam

On a Starweld, foam is injected, not poured, between the floor and hull — filling all air pockets. This provides greater strength and buoyancy and reduces noise.

6 Aft Casting Platforms

Because Starweld boats are all about fishing, they have the largest aft casting platforms in their class.

7 Torsion Beam Construction

Instead of the flat I-beams you find on many boats, Starweld uses the exclusive Starcraft Torsion Beam Construction (TBC) stringer system for exceptional strength and shock absorption.

8 Convertible Rear Bench and Stern Seats

allow you to quickly go from leisure to fishing.

9 Twice-baked Painted Hull

Starweld fully-painted hulls provide showroom looks designed to last for years.

10 Reverse Chine Hull

The Starweld full-length reverse chine hull pushes water down and away from the boat for quicker planing, improved cornering and a smoother, drier ride.

11 Machine-formed Ribs

Our unique machine-formed ribs are stronger and more flexible than the heavy two-ply aluminum used by many competitors.

GET TOURNAMENT READY FOR LESS.

Standard Hydraulic Steering

Pro Models feature full vinyl floors

THE POWER TO CHOOSE YOUR RIG FOR THE WAY YOU FISH.
